Every Voice Belongs

Language, meaning, and many ways to enter - a classroom SongBridge practice

VERSE 1

Some of us speak softly,
Some are learning how,
Some carry many languages
They don't always say out loud.
Every word has a story,
Every sound has a home,
We're not here to get it perfect -
We're here to be known.

CHORUS

Leader: Every word is a doorway,
All: Every word is a doorway,
Leader: Every voice belongs.
All: Every voice belongs.

All together:
Every word is a doorway,
Every voice belongs.

VERSE 2

It's not about the grammar,
Or getting every sound just right,
It's the courage it takes to try
And let your meaning take its flight.
When we listen for the message
More than how it's said,
We build a bridge between us
Instead of counting what's ahead.

CHORUS

Every word is a doorway,
Every voice belongs.
Every word is a doorway,
Every voice belongs.

BRIDGE

Some words come fast,
Some come slow.
Some need time
Before they show.
But every voice is carrying
More than we can see -
When you speak,
You're reaching me.

FINAL CHORUS

Every word is a doorway,
Every voice belongs.
Every language, every learner,
Every right and wrong.
We don't sort,
We don't compare -
We meet each other there.

Every word is a doorway,
Every voice belongs.

OUTRO

Speak how you can.
We're listening.
